Thanks Ash - this is useful. And I fully agree, no changes needed as a result of these comments.

Subject: Assessment of C. Masson Input to PRP

Nothing to change in my opinion to the PRP draft based on the input from C. Masson. My assessment of each of her substantive points:

- Proposal for using 6 action terms as a framework for reporting in the PRP (or that's what I think she's after) – reporting will not be done against a “new” framework; reporting will be done as called for under the GLWQA and if anything against the Objectives of GLWQA.
- How 2012 GLWQA “actions” link to past GLWQA's - a lot of work seems to have been done.. none of this is valid for the PRP; the PRP covers progress over 2013-16 not an assessment of the various GLWQAs which was undertaken during the review > negotiations.
- Point about concern raised at June GLEC re. public engagement – something to consider during implementation.
- Revising Fig 1 – no need to revise; nothing of value added by incorporating these proposed revisions.
- A3 commitment B.5. call for “accountable adaptive...” – the PRP reports against key commitments only in 2013-16; not every single commitment in the annex. Unless there was work done under A3 re. this commitment (?) there's nothing to add.
- Concern about length – not a concern.

Hi Catherine – I wasn't at this June GLEC meeting in-person but during the discussion of the Progress Report of the Parties Carla and Chris identified that GLEC Member input was due by June 10th. If you do have comments as a public observer to the GLEC please do forward them by June 13th the latest for consideration. We're working on a very tight timeline.

If you have any other questions re. the Report pls let me know. I've cc'ed Carla and couple members of the US GLEC Secretariat who I'm sure will correct anything I may have misheard while on the webinar.
